8' length. Channel may be painted to match wall color. Does not include pre-drilled holes. Acorn nuts and locking screws are included for wall anchoring. WAC8/W Call

SYSTEM 94

System 94 is an integrated wall system that offers the convenience of complete versatility for hard or soft lines. You can change from hangrails to shelves to face-outs without ever having to repair your wall. The mobility of the uprights with a simple loosening of two screws in the anchor plate allows reconfiguration of walls for seasonal changes.

Because System 94 is movable, there is never a need to mark a wall with new screw holes, no plaster or paint to use to cover-up a former wall position. Just slide the anchor plate along the channel, lock in position and you are ready to sell merchandise!

Wall Channel

8'L made of aluminum Channel can be painted or cut and screw holes drilled to fit specific needs. (Screws not included)
