

CROWD CONTROL

Lavi Industries TRADITIONAL QUEUING

Traditional Public Guidance Posts gracefully guide patrons through lines with velvet velour ropes, braided ropes and high quality tweed and vinyl ropes.

Traditional stanchions are classically styled crowd control posts, utilizing swag ropes to create a queuing line. Available in Solid Brass, Stainless Steel and a variety of painted (powder coated finishes). Our extensive variety of portable posts will enhance any decor. All posts are factory assembled and include a universal ring that accepts swag ropes from any direction.

Metal finishes vary from each style of post. Some of the finishes available are: Polished Brass, Satin Brass, Dark Bronze, Polished Chrome, Polished Stainless Steel, Satin Stainless Steel and Lido Tone*.

For more information or samples please call today to speak with a sales associate.

*Lido Tone has several options in the color range and offers a 'wet look' and textured finish.

Please note: Total Rope Length is determined by measuring from end hook to end hook; i.e. a selection of 4 feet will result in a rope size of approximately 3' 8" the end hooks at each end contribute to approximately 2 more inches each for a total of 4 feet.

Velour Rope Colors: Evergreen, Black, Silver Antique, Cardinal, Crimson, Cambridge and Tobacco.

Vinyl Rope Colors: Snow, Grey, Black, Gold, Red, Moss Green, Wine and Indigo.

Braided and Tweed Ropes: Natural Hemp, Black Braided, White Braided, Azure Tween and Natural Tweed.

Please call or come in today for more information, display and swatches.

Lavi Industries BELTRAC

Constructed from a continuous extrusion attached to a weighted steel base, the beltrac line of public guidance stanchions will withstand years of use in the field. Each post is equipped with a 4-way dovetail groove designed to receive retractable belts or other attachments. To protect flooring in the queuing line, all posts are supplied with a standard non-marking rubberized base.

Available with 7', 13' and 18' belts. The units are attached to the wall with efficient, small dimension back plates. These units are ideal for cash register closures, hotel corridor barriers and warehouse safety aisle closures. Available in a variety of finishes and belt colors.

(Dovetail groove design)

Please call for more information on the finishes and belt colors. Custom colors available.
